

Shelf Confidence Specs

We accept electronic art files for Mac. Current graphics applications supported are listed below.

Supported art files may be e-mailed as an attachment.

WE DO NOT support Word®, PowerPoint®, Publisher® or Excel® files for graphic design purposes, these are not graphic files and will not be accepted.

Current graphics applications

Note: Image size must be at least 3” wide/high (on the longest side of product) and 300dpi. Clipping path in image preferred.

Accepted File Formats -.TIFF, .EPS, .AI, .PSD, .JPG or .PDF (must be HI-RES)

PhotoShop CC

Illustrator CC

Note: embedded Images must be at 300dpi at final size.

Graphics Applications Supported for Desk Top Publishing

Note: All linked Images must be at 300dpi at final size.

InDesign CC (Packaged with all placed files and fonts)

QuarkXpress 7.31 (Packaged with all placed files and fonts)

FONTS

To avoid font incompatibility, **we request that all fonts be converted to outlines.** This can be done in both Illustrator and InDesign.

Adobe Acrobat PDF

Note: All PDF files must meet the above criteria for their intended use.
